

Who We Are

Engine Carbon Clean is a global business offering franchise opportunities providing you with the opportunity to offer our industry leading hydrogen engine cleaning technology to customers in your area.

We are the original Engine Carbon Clean and the UK's only CE certified manufacturer and supplier of hydrogen generators designed specifically to clean combustion engines. Furthermore, we are the only hydrogen cleaning company who are endorsed by the renowned Which? Trusted Trader scheme as well as the only company with IMI trained and certified agents who have passed a bespoke IMI accredited course for our product and service.

Our customer base is large and varied and includes consumers, garages, car fleets, hauliers, vehicle tuning companies, taxi firms, bus companies and plant companies, who will all benefit from having their vehicles regularly cleaned using our Engine Carbon Clean service. As part of our commitment to fleets, we are active members of the Road Haulage Association and we also work in the marine, power generation, mining and farming sectors.

We develop and manufacture all our own products in the UK and distribute them exclusively through a network of distributors and franchisees. We aim to have a long term, profitable business relationship with our network of franchisees in the UK as well as our global teams in Ireland, Europe, Africa, Australia, North and South America.

What We Offer

-  **A British manufacturer** - With a ground breaking service our Engine Carbon Clean units are designed and manufactured exclusively in the UK.
-  **Proven technology** - with over 25,000 cleans carried out globally on a large range of engines, our technology is industry-leading and benefits from continual, dedicated investment and enhancements.
-  **Exclusive territory** - As a franchisee you are the only person authorised to provide the Mobile Engine Carbon Clean service in your area.
-  **Diverse customer base** - As well as providing the service to all car owners, each franchisee can work with garages, car fleets, hauliers, vehicle tuning companies, taxi firms, bus companies and plant companies as well as marine, farming and power generators.
-  **Repeat business** - Keeping your customers engines running efficiently is a regular service providing both repeat business and referrals.
-  **Complete training & support** - We have developed a proven training and coaching system which supports you and your business. All our agents take part in accredited IMI training to add additional professional standards to our service offering.
-  **Business in a box** - Our comprehensive franchise package gives you all the tools you need to start working from day one.

Why Join our Franchise?

Managing your own franchise offers numerous benefits including being your own boss, managing your time around family or other work commitments as well as unlimited potential for earnings.

Here are just some of the reasons our agents have joined us:

- Industry leading equipment with ongoing development
- IMI Training and Certification
- Ethos – our business culture, openness, honesty and part of a team of likeminded approachable colleagues
- Initial investment costs
- Spending time with the family / working when it suits you
- Being your own boss
- Professionalism of team and reputation - 5* reviews on multiple platforms
- Opportunity to 'try before you buy' (the chance to spend the day with one of our agents)
- ECC online engineers forum for help & advice & head office support provided
- Which? Trusted Trader endorsement

We Are Looking For:

Pro-active individuals with a highly professional, customer service orientated attitude as well as drive, determination and plenty of enthusiasm.

Honesty and Integrity is key to fit into our ethos – we believe in doing the right thing for the customer and developing long term relationships.

Engine Carbon Clean franchisees come from many different backgrounds - from mechanics and engineers to car enthusiasts, scientists, sales and management.

If this sounds like you, then please send your CV and a covering letter explaining why you want to join us and what you can bring to the team, to joinourteam@enginecarbonclean.com
